## LATEST CONDENSED NEWS.

[By Telegraph to the Pittsburgh Gazette.]

—A terrible and fatal accident occurred by a gas explosion at Bethlehem, Pa., on Sunday night, 5th inst., at the Moravian Seminary for young ladies. It was a truly lamentable affair, resulting in the immediate death of two persons. The victims were all servants engaged at the Seminary. Susan Manhertz and Hannah Hawk are the names of the dead, and Susannah Knoll the name of the woman still in danger. Maria Krauss and Lena Koherbacher are still suffering, while Eliza Fehr and Mary Graff were slightly affected. No pupils of the Seminary were at all affected, they sleeping in the upper stories, the accident having occurred in the basement.

—Upon his arrival in Richmond, to-day, Jeff. Davis will be taken to the Spottswood Hotel, where he will be kept at least until after the hearing on Monday, the United States Marshal being responsible to General Barton for the prisoner. Tickets of admission to the Court room will be issued on Monday, limited in number by the capacity of the Court room.

—Postmaster General Randall has finally issued an order to all postmasters who now have uncalled-for letter lists published in newspapers, to give it to any paper that will publish it gratuitously. They will then stop it in the paper which charges for the publication of the lists.

—The steamer Wagner, of Cincinnati running between Omaha and Sioux City, snagged on Thursday eighteen miles below Decatur. The boat was loaded with grain and railroad ties, and is a total loss. She was valued at twenty-five thousand dollars.

He died almost immediately.

—Ex-Mayor Monroe has had another long interview with the President, to take counsel with him upon New Orleans matters, and especially General Sheridan, who Mr. Monroe thinks ought to be summarily removed for what he calls usurpation. There is an exceedingly bitter state of feeling against General Sheridan, and some pretty pert telegraphic correspondence has been indulged in. General Sheridan is sustained by General Grant.

—Thursday evening during the rain storm a colored man named Francis Derm, residing in Harrisburg, was returning on an engine from work on the Lebanon Valley Railroad, and in attempting to alight while the locomotive was in motion, fell to the ground in front of the wheels and his head was severed from his body.

The Judge responded to the welcome at the St. Charles Hotel to a large audience. He was announced to address the public to-day.

—The New York *Times'* special says: Chief Justice Chase had nothing whatever to do with the issue of the writ of *habeas corpus* in the case of Jeff Davis, and his name was attached as a mere matter of form. The Commander of Fortress Monroe will put the prisoner in the hands of the United States Marshal, who will be held responsible for his custody. Mr. Davis will be furnished with rooms at the Spottswood Hotel, Richmond, till after hearing of the return to the writ; thus the Government does not release its hold upon the prisoner, and the matter of bail was not thought of. The case is one merely as to why the Government holds the prisoner. The report that Chief Justice Chase is to go to Richmond is unfounded. He knew nothing of the issue of the writ of *habeas corpus* in Davis' case till after its issue.

—The body of Louis Fox, the billiard player, who mysteriously disappeared in December last, was found yesterday morning floating in the river at Charlotte, seven miles from Rochester.

McCury, of Alabama, D. Sampson, of Washington, and others.

### The Paris Exposition and American Pianos.

The following appeared in *La Presse Musicale*, an influential musical journal in Paris:

The Steinway Pianofortes furnish us with a specimen of American industry and manufacture which leaves no room for improvement. We do not hesitate to declare, after having heard these pianofortes, that they are real wonders of art and industry.

We have just heard the Grand Pianos, exhibited by Messrs. Steinway & Sons, and our surprise, we must confess, was great. We always thought that a pianoforte of this kind, possessing such power and such majestic fulness of tone, could not be made subservient to facility of modulation, and variety of accents. Then again we were of opinion that such powerful pianos could not but have a hard touch. Nothing of the kind.

But a still greater surprise has been in store for us. We have been compelled to admiration by a Square Piano, one of those instruments which have been scarcely in use in Paris for the last twenty years, but which are preferred in America; we are even told that ninety-five out of one hundred pianos sold are of this shape.

If we had at first doubted that with such a piano one could create a sensation in Paris, our opinion soon underwent a complete change, after having heard the instrument. We can now easily understand the preference given by the Americans to these pianofortes, for in Europe we can hardly realize what these Square Pianos are, as manufactured by Messrs. Steinway & Sons.

Suffice it to say that the house of Steinway & Sons, in New York, has justly occupied for the last ten years the highest rank in its speciality, and if it has the privilege of being at the head of the manufacture of pianos in that country, it is because it has understood how to give an impulse to this manufacture, and to bring the latter to the highest degree of perfection.

—A Cleveland paper says there is a man in that neighborhood so mean that he sits on the doorsteps of the church Sundays to save the wear of his pew cushions.

## THE JEFF. DAVIS SENSATION.

### Gen. Burton Will Take Him to Richmond—Order of the President.

[By Telegraph to the Pittsburgh Gazette.]

FORTRESS MONROE, May 10.—The writ of *habeas corpus* in the case of Jeff. Davis was served this morning on General Burton by Marshal Underwood and Deputy Marshal Duncan. General Burton at first decided to deliver Mr. Davis over to the custody of the Marshals to morrow, but afterwards determined on obeying the writ literally, requiring him to produce Davis before the Richmond Court. Mr. Davis and family, General Burton and the Marshals will take the steamer to-morrow for Richmond. General Burton, on Monday, will personally produce the prisoner in Court. In the event of Davis being released by Judge Underwood under the writ, he will be immediately re-arrested and placed on trial under an indictment for treason.

Robert Ould and numerous other visitors reached here this morning, bearing boquets and other presents to Mr. Davis and family.

The utmost interest and anxiety is manifested at Norfolk respecting the probabilities of the trial and release of Davis.

The following is a copy of Gen. Bourton's order:

WAR DEPARTMENT,
WASHINGTON, May 8, '67.

*To Brev. Brig. Gen. Burton, Commanding Officer at Fortress Monroe:*

The President of the United States directs you to surrender Jefferson Davis, now held in confinement under military authority at Fortress Monroe, to the United States Marshall, or Deputies, upon any process which may issue from the Federal Court of the State of Virginia. You will report the action taken by you in this order and forward a copy of the process served upon you to this office.

By order of the President.

[Signed,] E. D. TOWNSEND,
Adj. General.

## FROM RICHMOND.

[By Telegraph to the Pittsburgh Gazette.]

RICHMOND, May 10.—Joe Kelley, tried for the murder of Jessee Murphy, at a horse race, was acquitted.

Present indications are that there will be no demonstration by the people on the arrival of Davis, through deference to the wishes of the authorities.

A large meeting of negroes was held to-night, and the usual number of addresses were made.

It seems impossible to ascertain to-day, positively, whether Jeff. Davis will be tried or not. In a conversation Judge Underwood said if the trial did not take place it would be because the attorneys on one side or the other were not ready to proceed; that the Court was ready, and the Chief Justice would preside. On the other hand Mr. Chandler, the District Attorney, expresses doubts whether the trial will take place.

The statement that the Grand Jury had indicted the proprietors of certain newspapers is unfounded.

To-day the Grand Jury, after consultation with General Schofield, refused to indict a street car conductor for the ejection of a negro named Scott on Friday.

Elliott won by a foul, after nine rounds, occupying about eleven minutes, Davis going down without a blow. Davis is badly punished, and is said by many to have sold the fight. Elliott got "first blood" and "knock down" in the first round, and in each succeeding round Davis went down to avoid. He was several times warned. On the boat from Detroit there were two savage fights, in one of which a man had an ear and his nose bitten off. Otherwise the affair was orderly.

### Indictments for Counterfeiting—The Moffit-Thompson Conspiracy—Accuser Accused, &c.

In the United States District Court, yesterday, the grand jury returned two true bills for counterfeiting against Robert Black, of Washington county, on the oaths of Emanuel Walters and John Walters, father and son, of Fayette county. This man Black was connected with the Moffit-Thompson conspiracy case, tried in the Quarter Sessions at last term, of which, for our present purpose, it is necessarry we should give a history.

In the month of May, 1866, a man named Haggerty was arrested, in the vicinity of Brownsville, at the instance of a citizen of Greene county, of whom he had purchased horses with counterfeit money. Haggerty, not being "in the business" professionally, made no concealment about the matter, and his statements implicated William Dawson, living in the same vicinity, and others. Subsequently Dawson, having been arrested, made some revelations, and, it is asserted, consented to bring to justice parties engaged in the counterfeiting business upon the inducement that he should be held harmless. Coming to the city with Alex. Moffitt, a well known citizen of good standing in Brownsville, interested in having that community protected from counterfeiters, the locality being flooded with the "stuff" about that period and previously, Dawson appeared before the United States Commissioner and made information against some six or seven persons, among others, Robert Black and Isaac and Samuel Thompson, brothers, as counterfeiters. The accused were held to answer at the special term of the United States Court, in August last. Dawson not appearing, they were held until the following October term, when, Dawson not yet appearing, they were held to answer at the next May (the present) term. But, shortly after the October term, Isaac Thompson had a *nolle pros* entered as to himself, and very shortly afterwards, on the testimony of the man Robert Black, now indicted, had Moffitt and Dawson indicted for conspiracy to charge and indict him (Thompson) with counterfeiting. The case for conspiracy was tried, as we have stated, at the March term of the Quarter Sessions. Black was subpœnaed as a witness for the prosecution (for Thompson) but was not called, for reasons no doubt satisfactory to those in whose interest he was—perhaps in anticipation of rebutting testimony.

When the information against Black was made by Walters, a deputy of United States Marshal Rowley was given a warrant for his arrest, but the officer on his way up the Monongahela river happened unfortunately to make inquiry concerning Black of a passenger on the boat, who, being a friend of Black's, went ashore at a certain point and informed him of the fact that an officer was in pursuit of him. Black accordingly fled. His whereabouts, however, being ascertained, a special deputy went in pursuit, captured him at a distant point in Western Virginia, and brought him to the city. Samuel Thompson became his bail in the sum of three thousand dollars. Another information being made, Isaac Thompson became his bail in like amount, and when the true bills were returned, yesterday forenoon, the Court increased the bail to five thousand dollars in each case, in both of which Isaac and Samuel Thompson became bail.

The whole matter summed up seems to warrant the conclusion that Dawson, who, it is a notorious fact, was engaged in the counterfeiting business, after making the information against Robert Black, the Thompsons, and others, was induced (to use the mildest term) to go away, his absence, of course, preventing the accused parties from being arraigned. In his absence, Moffitt, instrumental, it may be admitted, in causing Dawson to make the informations, is tried for conspiracy with him, and is convicted. [The Court is at present considering the motion for a new trial, having heard the argument during this week.] The next act in the drama is the indictment of Black, one of those accused by Dawson, and we find Isaac Thompson, another of the accused, and the accuser of Moffitt for conspiracy, appearing, with his brother Samuel, as the friend of Black. Taken altogether it is a "considerably mixed" transaction, and we will not be surprised if in the end certain parties, who have long escaped, are brought to the bar of justice. Should it so happen, that the present accusors of Black, like Dawson, be induced to disappear, and Black, like Thompson, bring a charge of conspiracy against Moffit, inasmuch as Moffit was the special deputy who arrested him in West Virginia, it would be a most striking coincidence.

### Valuable Manufacturing Site for Sale.

We call especial attention of men of capital and those wishing a site for a manufacturing establishment of any kind to the sale of a very valuable lot of ground most eligibly situated for this purpose. On next Tuesday, the 14th inst., at 10 o'clock, A. M., the administrators of T. M. Harton will offer at auction, on the premises, that certain lot of ground situate in Collins township, adjoining the property of the Hon. Wilson McCandless and Dr. Peter Mowry. This property is within sight of the Allegheny Cemetery, having a front on the Allegheny Valley railroad of 332¼ feet, extending back to the Allegheny river, a distance of 546 feet, and has also a front on the river of 384 feet. The lot contains, in all, four acres and sixty-five and a half perches.

From the above description it will at once be seen that for any manufacturing purpose, an oil refinery, mill, &c., it is probably as desirable a location as could be had anywhere within five miles of the city. Access to the establishment could be had both by the river and by the railroad, and in this respect the location is one of the very best that could be had. Freights could be carried by either way as most desirable, and it could also be reached by by the Citizens' Passenger Railway. The many advantages possessed by this site will be certain to call forth a large number of persons at the sale, and the bidding will no doubt be lively. We advise parties wishing to buy a manufacturing site to step upon one of the cars of the Citizens' road and take a look at this lot of ground.

### Charge Against a Conductor on the Street Railway.

Charles Liester appeared before Alderman Morrow, yesterday, and made information against the conductor of car No. 9, Pittsburgh and Birmingham Passenger Railway, charging him with assault and battery. Liester is of Teutonic extraction, and, very naturally, loves his beer, besides having considerable pride in his native country. On Thursday he came over to town and indulged freely in "bock," finding almost all the taverns well supplied with the exhilarating beverage. Towards evening he started home, *plenus Bacchi*, taking passage on car No. 9. After proceeding some distance, he got into a conversation with those about him in reference to the probability of war in Europe and its result, in the event of such a war taking place. The conversation waxed warm, Charles becoming very boisterous, and asserting it as his firm conviction that Prussia would clean out France root and branch. He became so much excited that the conductor found it necessary to expel him. Charles made resistance, to the best of his ability, and when he came to himself found that he was the possessor of a beautiful pair of black eyes, besides other marks of the recent conflict. He accordingly came before the Alderman yesterday and made the charge as stated. A warrant for the arrest of defendant was issued.

### The Attempted Suicide at the Monongahela House.

The GAZETTE of yesterday contained an announcement of the fact that a Mr. Halley, of a manufacturing firm at Decatur, Illinois, had attempted suicide at a late hour Thursday night, in his room at the Monongahela House in this city, where he had been stopping for several days. It appears that the man had been removed to the Mercy Hospital, in the Eighth ward, being afflicted with *delirium tremens*, but remained there only a short time, making his escape by climbing out of a window, and returned to the hotel. Having been secured, as it was thought, in a room, a physician was summoned, but when the medical man came it was discovered that Halley had left the room and was climbing about the roof, or skylight over the office of the hotel. He was again placed in a room, and a negro man engaged to keep watch over him, and who was with him at the time of the attempted suicide Thursday night, as we noted yesterday. The wound he inflicted on his neck is not considered dangerous, and we learn that he is recovering from his *delirium*. During yesterday he was removed to the Asylum at Dixmont.

### Arrest of Youthful Larcenists.

Yesterday officers Dressler and Wrigley, of the Mayor's police, arrested three boys named Barney Burns, Philip Murtagh and John Price, charged with stealing shirts from Aronson's clothing store on the corner of St. Clair and Liberty streets. The boys were locked up for a hearing. After being jugged they gave information to the officers which may lead to important results. It has led already to the finding of one box of the tobacco stolen some time ago, from Murphy's tobacco store, on Liberty street, and the arrest of a boy charged with being concerned in the robbery of the store. Officers Moon and Dressler are working up the case and we shall probably have more to report hereafter.

### United States District Court.

Before Hon. Wilson McCandless.

Court opened at ten o'clock on Friday.

On motion of Gen. Collier, E. S. Osburn, Esq., of Luzerne county, was duly qualified and admitted to practice.

The Grand Jury returned the following the following true bills:

United States vs. Robert Black; Indictment, having in possession and passing counterfeit treasury notes.

United States vs. Robert Black; Indictment, passing and attempting to pass counterfeit treasury notes.

The last two bills closed the list to be passed upon by the Grand Jury, which was discharged.

Scott Smith, convicted of robbing the mail, was sentenced to the Penitentiary for ten years. but the Court stated that under a State law, owing to the youth of the prisoner, the penalty would be reduced to an equal number of years in the House of Refuge.

The case of Charles Clemens *alias* Charles Williams was proceeded with. District Attorney Carnahan acting for the United States, S. A. Purviance and M. Swartzwelder, Esqs., appearing as counsel for the defendant.

As we stated yesterday, the defendant was accused of having committed one of the boldest robberies recorded in the annals of the Postoffice. It might be interesting to our readers to know the details. In February last a man appeared in the neighborhood of Lockhaven. Nobody knew him. People at first paid little attention to his whereabouts, and had it not been for a peculiar circumstance, he would perhaps never have been arrested. A fire broke out, and the people, as is customary in such cases, flocked to the theatre of the disaster. They remarked a man walking about and mentally preoccupied. Who was he? Nobody knew. He wore a dark coat, with pantaloons and hat of the same color. With an inquisitive look, he seemed to participate greatly in the event that was just taking place. What happened the following night gives a clear indication of what was revolving in his mind. The flames had been extinguished and every one returned to his home under the influence of the occurrence. What an opportunity for a criminal to perpetrate crime. The next morning the door of the postoffice was found broken open, a bag containing hundreds of letters gone, with about two hundred and fifty pennies, taken from a drawer. The unknown face of the preceding evening had disappeared. It was very easy, if not to discover the culprit, at least to have suspicions upon him. Who else was it than the stranger, who had been seen walking in the light of the raging element? The alarm was given; searches in every direction made. They discovered, at last, the bag and its contents in the cemetery of the village. Four or five hundred letters were scattered on the ground, all open, the bag cut open and lying at some distance. It remained to find the guilty party of that act of temerity.

The Chief of the Police of Lockhaven, whose conduct is to be fully appreciated in this affair by all the friends of order, followed the track over the field and ascertained that the robber had taken the direction of Harrisburg. He joined him the next day, in the evening. The accused had walked twenty-eight miles the previous day to escape all suspicions. Questions of his whereabouts having been put to him, it resulted that he was a man without a home, a mere vagabond, living here and there, without permanent or fixed residence. Searches were made and they discovered on him about sixty dollars in United States Treasury notes and 250 copper pennies and bills drawn on several individuals to the amount of $7,000, which, as it appeared from the testimony and the developments, were taken out of the letters and the drawers at the Postoffice.

The accused appeared without witnesses, without friends, with sundry supposed names, and all the probabilities and evidence of a man on whom rested a grave accusation. The jury convicting, he was sentenced to the penitentiary for ten years.

The case of George Hiner, for passing a hundred dollar counterfeit note, was then called up and the jury sworn, after which the Court adjourned till to-day at 9½ o'clock.

### Dr Keyser's Great Medicine Store.

The great *sanitarium* for the city of Pittsburgh is undoubtedly the establishment at the corner of Wood street and Virgin alley, conducted by our friend, Dr. Keyser who, for over thirty years, has devoted his attention to the healing of the sick, especially that class of disease known as *chronic*. There are many lingering illnesses which render those who are their victims more wretched than if subject for a while to some more acute and violent malady, and these illnesses are just as remediable as any other, if the proper attention were devoted to their treatment.

DR. KEYSER'S BLOOD SEARCHER, for all diseases of a non-febrile character, having their origin in a vitiated or tainted condition of the blood, has made more cures than any other remedy of modern science. In its great adaptation to this class of maladies it has cured hundreds and thousands of *tetters, scrofulas, ulcers, cancers*, liver complaints, dyspepsias, dropsies, and various malignant diseases to which it were difficult to give a name, entirely significant of their true character. It is in these cases of blood disease that DR. KEYSER'S BLOOD SEARCHER has made for itself a name which goes beyond any other remedy of the healing art. It is peculiarly proper at this season of the year that those subject to brashes and weaknesses dependent on the climacteric changes of the season, should use a few bottles of this harmless tonic alterative, which will not only render the system inocuous to disease, but will at the same time fortify and strengthen it against the invasion. Country merchants will find DR. KEYSER'S BLOOD SEARCHER a medicine that will enable them to do a great deal of good, and save harmless from sickness many persons dependant on them for their supplies. Ask for Dr. Keyser's Blood Searcher, and take no other. To avoid imposition, look for Dr. Keyser's name over the top of the bottle and on the outside label. One dollar per bottle—six for five dollars, at 140 Wood street. Consultation rooms for lung examinations, 120 Penn street. Office hours from 9 a. m., until 4 p. m.

### The White House.

This delightfully situated house of entertainment at Perrysville has undergone material change and improvements since our journalistic friend, Mr. Thomas Costamagna, assumed the proprietorship. It is the most pleasant terminus of a good road about these parts, and for an afternoon or evening ride we know of no place which presents equal attractions. Mr. Costamagna serves excellent meals at any hour and his "suppers" have already become famous amongst pleasure seekers. Information of the route to Perrysville can be obtained at any of the livery stables, and we urge our friends to drive out that way and pay Mr. Costamagna's White House a visit.

### Accident at the Pittsburgh Steel Works.

Yesterday about two o'clock, a man named Harry Hyde, employed at the Steel Works of Anderson, Cook & Co. corner of Ross and First streets, met with a serious accident. He was employed as catcher at the rolls, and was directing a rod of steel through the same, when a nut, which held the rolls in place, gave way, and he fell forward on the tongs, which he held in his hands. One handle of the tongs entered his throat, penetrating about two inches. He was immediately removed to his boarding house on First street. near Smithfield, and Dr. McMeal summoned. It was asertained that the injury he received, although a painful and serious one, will probably not result fatally.

### THE GERMAN NAVY.

TRANSLATED FOR THE PITTSBURGH GAZETTE.

[From the Uberland and Meer.]

It is announced that the large iron clad, William I., at Blackwell, England, of which so much has been said for some time past, has been acquired definitively for the Northern German Navy, after a contract passed between the Prussian government and the builders of the Thames and Iron Ship Building Company. The vessel, which is now called William I., is said to be the strongest which has been built in Europe or in America. The plan of the William I, was originally made in 1865, with the assent of the Admiralty by the chief contracter of the British navy, Mr. E. I. Reed, for the Turkish government, and it was declared that the new vessel would be a *ne plus ultra* of an iron clad. Having been nearly finished, it was transferred to Prussia by the Sultan through financial reasons. What opinion Mr. Reed had of his child is to be seen from a speech made by him at the Mechanic Institute, at Plymouth, in December last, where he states that if Prussia acquires this vessel it will have the power to neutralize all the former advantages of the ordinary iron-clads of France and England, and the Prussian flag might be seen with security and an envied pride over the world. The William is 365 feet long, 60 feet broad, 20¼ middle depth and 5,938 tons burden. It is the second man of war which has been built with double hul. and walls formed by longitudinal cells. The William will receive 16 guns of the heaviest calibre 7 feet above the water line. There are two turrets wheeling on a pivot containing 4 guns 20 feet above the water edge. Besides this, there are 4 guns behind convex shields. There has not, however, been made any decision as to the definite armament of the vessel.

The artillery of the Bellerophon, which has heretofore been considered the strongest iron clad, consists in eight 300 pounders in the battery, two 400 pounders in the bow, and two 300 pounders in the stern, that is altogether twelve against twenty-four of the William. Both vessels have an armor clad belt of sixteen inches, and the latter has as a complimentary strength a girdle of iron all round the vessel, eight inches thick, to protect the water line. Besides, the batteries are covered with heavy iron platings. The machinery of the vessel is nominally 1,150 horse power, which may be increased to 6,000.

The Adjutants of the powerful "William I,"—the "Crown Prince," and the "Fredrick Kane," will be ready at the same time. The former is building at Samonda Brothers,' in Poppelar, near London. The latter was launched the 16th of January, at Lu Seine, near Toulon (France.) Both are much inferior, having 16 guns each with only 5 inches armor belt on the Water-line, and 4¼ inches on the length of the Battery. They have pretty near the same keel dimension as the English vessels, "Defence," and "Resistance," namely 275 and 280 feet length. But in the contrary they are from 2 to 10 feet less in the main keel, which enables them to be swifter than all the English vessels, whose rapidity does not exceed 10,680 and 11,834 knots and hour.

### EDUCATIONAL PROGRESS OF THE BLACKS.

Whatever theology or science may affirm as to the origin of the human race, or of the various tribes of which it is composed, there is little or no doubt as to the fact that hitherto the blacks have failed to develop a high order of civilization, or even a condition of society deserving, in any true sense, to be called civilized. All the other races have attained certain stages of intellectual and moral elevation, according to their respective genius. The progress has been normal and spontaneous—from within. But the blacks seem to have remained, with individual exceptions, substantially what they were at the beginning. They have neither originated nor appropriated knowledge beyond those ruder forms specially adapted to support animal life. Reports have been circulated, from time to time, of the existence of tribes of blacks, in remote corners, that had advanced farther, but diligent search has failed to make the discovery certain.

In consequence of these discouraging facts, it has been assumed that the blacks had no aptness for learning, and that by whatever new and favoring circumstances surrounded, would remain shrouded in congenial darkness. If solitary instances of superior capacities and acquirements were produced, the excellencies were attributed to the intermingling of white blood in greater or lesser proportions; discarding the natural inference that if a little white blood could do so much, a good deal of it ought to exalt to angelic altitude.

Since the great act of Emancipation the blacks of the Southern States have certainly disclosed surprising and unlooked for qualities. At first they experienced a sort of bewilderment. The boon of Freedom was so great, came in a manner so unexpected, and with attending circumstances of such grandeur and impressiveness, that the recipients of it were staggered and delirious. They felt that Liberty was the most precious of mundane rights; yet did not apprehend in what it consisted, nor what limitations and responsibilities attended it. In these particulars they had a good deal of company on the part of whites who claim to know much. But presently the blacks settled down under the conviction that Liberty, whatever else it might imply, involved the right to work and enjoy the fruits of industry; to learn and have the benefit of knowing; of being secure and helping the security of all. For months there has been a concurrence of testimony to the effect that the blacks were improving in systematic industry, economy and forethought. Now there is accumulating evidence that they are rapidly acquiring the rudiments of education.

MR. ALVORD, the Superintendent of Colored Schools, reports to General HOWARD that there are under the auspices of the Freedmen's Bureau 1,207 schools, employing 1,430 teachers, and instructing an aggregate of 77,998 pupils. But this embraced neither the totality nor the best part of the educational movement. In speaking of Texas, the Superintendent says:

"Many small schools in obscure places are scattered through the State, taught mostly by colored people who have obtained a low degree of elementary knowledge; but these are not reported. It is supposed that at least ten thousand colored persons, old and young, have learned to spell and read in Texas within the year."

If the same zeal for knowledge has been manifested in the other States—and numerous facts indicate it has—more progress has been made independently of the operations of the Bureau than through its agency. This independent improvement is altogether the most valuable. It shows the blacks are not simply receptive of what is, so to speak, forced upon them, but are in eager quest after instruction.

A letter from a Louisiana planter is given, which has peculiar significance:

CENTREVILLE, PARISH OF ST. MARY, LA., }
December 28, 1866. }

DEAR SIR: I wish to give you the result of a little experiment tried by me during the past summer.

As nearly every school with a white person for a teacher had proved a failure in this vicinity, I determined to test the matter thoroughly. I therefore induced a young negro woman to establish a school at a point which would be convenient to six plantations, I becoming responsible for the rent of the house in case she did not pay for it. The school has now been in operation about six months. The parents (common plantation laborers) have not only sent their children, but have also paid, each month, the price charged for tuition out of their hard earned wages. The average attendance has been twenty-three, ranging in age from five to thirteen years. I have never seen better order or discipline; and at an examination the other day, without any previous warning that they were to be examined, I beheld as great if not greater progress than I ever saw in any elementary white school.

I would remark, too, that the text-books used in the school form a most laughable medley, for parent and patron were too poor to purchase new books. Such a tattered and dirty lot of primary geographies and arithmetics, with half editions of spelling books, never before was seen. But I will venture to say that very few white schools can exhibit better readers, writers, or spellers, on the part of scholars of the same age, or a better knowledge of arithmetic or geography.

Here, then, my dear sir, is a fact (a small one, I'll admit, but nevertheless a fact) which cannot be written down: *A full-blooded black woman, with a very ordinary education in the rudimentary English branches, takes twenty-three full-blooded negro children, who had never been ten miles from the plantations where they were born, and in six months teaches them as much as any white children of the same age know.*

Another fact has been developed by this experiment, viz: that *with very little assistance the negros will educate their own children.* Let but the miserable prejudice and ill-feeling which exists on the part of the old slave owner towards the black be done away with, (and a great change is already going on here), and with blacks for teachers, it will not be long before there will be a school on every plantation. The establishment of large central schools in towns and cities, at vast expense, by government, will not be as advantageous as small schools more generally diffused throughout the country on the different plantations, as the negroes are unable to support their children away from home.

I am beginning, or rather their own interests are doing it, to engage some of our largest land owners in the cause of education, and I am in hopes, sir, that you will have a pleasant report from St. Mary's in the course of a year or two.

Respectfully,
DR. SHAKESPEARE ALLEN.

Major General O. O. Howard, Superintendent Refugees, Freedmen and Abandoned Lands.

Judging from these and other indications of like character, it is plain the blacks have the elements of progress in them, and are bringing those elements handsomely into play. The efforts they are making to obtain education, and the success so far achieved, gives plausibility to the belief that they will distance the poor whites, who are their neighbors, and obtain a rank of decided respectability. They have clearly a thirst for knowledge and aptness in acquiring the lower or primary forms of it. How much beyond this they can go remains to be tested. But this must be borne in mind, that the reputation of the whites is based rather upon individual exceptions than upon greatness in the masses. Only here and there a white man is found who rises into the realm of pure thought, and not one in a hundred thousand of his fellows comprehend his superiority. Ordinarily he has been accounted a monster, altogether dangerous to the repose of the world.

IN NOTICING a Convention of Manufacturers which assembled in New York on the 5th instant, the *Tribune* incidentally remarks:

"The importers have substantial control of the Newspaper Press of this city. The *Tribune* and one or two papers excepted. We do not, in saying this, charge any party with corruption. It *happens* that the importers are Free Traders, and that they, with the jobbers of their goods, are very large and constant advertisers *as most American producers of Metals, Wares and Fabrics are not.* The importers advertise mainly in journals which talk as those importers would have them on the Tariff question; and the great majority of our journals talk so as to please their most liberal advertisers. All this is rather natural than otherwise, and we are not blaming either party. We state facts which explain other facts, and demand public attention."

This point is well taken. Manufacturers wherever situated, naturally and properly want able and influential journals in their respective vicinages, to advocate that System of Governmental Protection on which their prosperity ordinarily depends. They are sensitive, and sometimes censorious, if particular journals do not come fully up to what they conceive to be the exigencies of the case. Yet they contribute comparatively little to the support of newspapers. In this city few branches of retail trade can be mentioned which do not furnish more solid support to the local press than all the manufacturing establishments put together. This explains why journals published in towns of about the same grade, but principally devoted to traffic, have much ampler revenues and are able to expend more upon editorial and other service. Perhaps the great struggle which impends, relative to Protection and Free Trade, may enlighten manufacturers as to their policy and duty towards the press in the matter of advertising.

"This is rank ingratitude. The *Post* did not put down the rebellion, because that would have abbreviated the services and salaries of the Quartermasters and Paymasters who thronged the road towards the Military Chest from the GAZETTE office—and this is our thanks for letting the war go on."—*Post.*

Why didn't you make a smart allusion to Noah or Adam? It would have been as pertinent as what you have offered. No person now connected with this journal got or asked place or emolument of the Government during the war.

ONE DAY the telegrams assert that Chief Justice CHASE will preside at the trial of Mr. DAVIS. The next day that he will. The third day that he will not, and so on. They had better drop the matter entirely.

#### Imports and Exports of the United States.

The report of the Director of the Bureau of Statistics for the month of April, 1867, has just been published, showing the statistics of the commerce and navigation of the United States, up to the 31st of March last.

The value of the imports of foreign commodities for the nine months ending March 31 were $306,683,833; for the three months ending on that date were $94,754,462, and during the month of March were $31,082,119; of which amount $27,954,743 was dutiable, and $3,127,376 free of duty. Of the whole amount imported in March goods valued at $18,606,584 were entered for consumption, and goods valued at $12,475,635 entered into warehouse. The principal articles were: Coffee, $933,682; cotton manufactures, $2,922,394; flax and manufactures thereof, $539,189; hides and skins, $1,237,394; iron and steel, and manufactures of, $2,112,526; silk and manufactures of, $1,528,735; sugar and molasses, $3,291,221; tea, $918,764; tobacco and manufactures of, $250,219; liquors, $402,667; wool and manufactures of, $3,694,765.

The exports of domestic commodities for the nine months ending March 31 were $208,788,633; the exports for the three months ending on that date amounted to $133,882,777, and the same for the month of March to $45,512,140. The principal articles exported were: Breadstuffs, $2,017,789; cotton, $31,301,779; cotton manufactures, $381,383; gold and silver coin, bullion and manufactures of, $1,679,025; lumber and manufactures of wood, $1,443,854; petroleum and other oils, $1,577,224; provisions, $2,637,897; rosin and turpentine, $215,035; tobacco and manufactures of, $744,194.

The value of exports of foreign merchandise for the three months ending March 31, were $3,985,499, and for the month of March, $2,272,198.

The commercial reports, while confirming the vast extent of our foreign trade exhibited in these statistics, show that the large proportion of it is done in foreign bottoms. From Bergen, in Norway, our consul reports the arrival of but a single vessel from the United States. Our consul at Laguayra, Venezuela, also reports the arrival of but one vessel. Our consul at St. John's, New Brunswick, reports a remarkable falling off in the shipments of lumber to the United States as compared with the same period last year. The report of our consul at Melbourne, Australia, shows 24,300 tons of shipping in port, with 933 tons belonging to the United States. The report of our consul at Lyons, France, exhibits a falling off in our purchases of silk, velvet goods, and other articles of luxury to the extent of nearly one-half, as compared with last year. The communication from the Hanseatic charge d'affairs exhibits a gratifying increase of trade between the United States and the port of Bremen, as compared with last year. Statistics of the shipments of textile manufactures from the United Kingdom to the United States exhibits a slight increase over last year.

The values of domestic imports given above except specie and bullion, are in currency; all others in gold.

A NEW INVENTION called the Haliotype promises to inaugurate a complete revolution in the art of printing. By this art an entire newspaper can be reproduced in four hours' time, without the labor of printers or the use of type. An impression of a page is taken by a camera and then transferred to a metal plate. This plate is immersed in an acid solution, which eats away from the surface all but the impression left by the camera, thus producing a perfect stereotype plate ready to be used in striking off printed impressions. I have been shown a copy of the *Punch* re-produced by this means in a very short time—illustrations and all. The reading was not as clear and legible as in the original, but the inventor claims that he will very soon be able to equal the originals. A company has been organized to prosecute the work, and have located their office in Beekman street, where experiments are now being conducted. Should the invention succeed, pictures and engraving of every description will become very abundant, as by means of it they can be reproduced any and everywhere in a short time. We are thus promised a complete revolution in everything pertaining to the art of printing.—*New York Letter.*

#### Riot in Northampton County.

The workmen on the section of the Lehigh and Susquehanna Railroad, opposite Parryville, went upon a strike last Thursday. On Friday morning six of them came down the valley, and when they arrived opposite Slatington, began, in various ways, to interfere with the laborers at work along the road in that neighborhood. They then went into a house occupied by a family, one of whose members is a young man in the last stages of consumption, and, after abusing him verbally, rushed upon him with the intention to do him bodily harm, but he avoided them by running up stairs. In the same room was an aged insane woman, who was then attacked, when the laborers on the railroad, mostly Germans, were called to oust the intruders, but before they could enter the house the rioters rushed out and attacked them. A sub-boss, named Baer, became engaged with two of the rascals, and they cut and mutilated him in the face in a horrible manner. They then turned upon an aged and infirm man, beating and cutting him in various parts of the body, and then entered his house and stole a shot gun. After committing these outrages they proceeded on down the valley, but a party of four citizens followed in pursuit. At Slate Dam, pressed by their pursuers, they swam across the Lehigh—and, in crossing, lost the gun they had stolen and the knapsacks of clothing they were carrying. Their pursuers procured a boat and followed them, and, at Laury's Station coming up with them, the rascals sought refuge in a house, where they were captured. They were taken before John M. Hower, Esq., at at Cherryville, where they gave their names as John Fleming, Mad. Malone, John Heiser, John Mey, Wm. Fleming, and Charles White. In default of bail they were committed to jail at Easton. *Allentown Dispatch.*

**CONSUMPTION.—This Scourge** of humanity, bane of civilization, with despotic sway has insinuated itself into all classes, grades and conditions of life. Neither age, sex or rank are exempt from its ravages. Its icy hand falls alike upon youthful innocence and hoar, headed age. Some of the prominent symptoms are Cough Expectorant, Shortness of Breath, Irritation about the Lungs and Chest, Darting Pains in the Side and Back, Emaciation and a general negative condition of the whole system. It is authentically stated that one-fifth of the inhabitants of this country and Europe die of Consumption. No disease has been more thoroughly studied, and its nature less understood; there is no disease upon which exists a greater diversity of opinion, and no disease which has more completely baffled all medical skill and remedial agencies. Persons suffering from this dread disease or any of its concomitants, should lose no time in possessing themselves of the proper Remedy, in order that they may stay its ravages, and be restored to health.

The Rev. EDWARD A. WILSON'S PREPARED PREPARATION for the cure of Consumption, Asthma, Bronchitis, Coughs, Colds and all Throat and Lung Affections, has been in use over 10 years with the most marked success. The remedy, prepared under Mr. Wilson's personal supervision, also a pamphlet, containing the original prescription, with full and explicit directions for preparation and use, together with a short history of his case, may be obtained of the following reliable Druggist in this State, viz: JOSEPH FLEMING, 84 Market street, Pittsburgh, sole agent for Western Pennsylvania. my9:T&S

**WHO IS RESPONSIBLE!**

Victim of debility, who is responsible for your feebleness? Not yourself, you will say, for you've done all you could to cure it. That's a mistake on your part. You hav'nt tried HOSTETTER'S BITTERS.

Gloomy dyspeptic, with an uneasy stomach and a world-weary face, of course you don't think yourself responsible for your own torments. But you are. It is easy to see from your condition that you hav'nt tried HOSTETTER'S BITTERS.

Billious sufferer, it is not your fault, you think, that your symptoms grow worse day by day. Blue pill doesn't do you any good. Very likely. But you can be brought round for all that. Why hav'nt you tried HOSTETTER'S BITTERS?

Friend, on whom Fever and Ague alternately blows hot and cold, and whose brain seems to be bursting with the effects of some powerful drug, do you assume the responsibility? O, no! You've taken piles of quinine, and all the regulation medicines. What could you do more? One thing more—the very thing that would have exempted you from all the pangs that now rack you. You have never tried HOSTETTER'S BITTERS.

Nervous invalid, what have you to say? You plead that you have taken all the nervines of the pharmacopœia. If they have done you no good, it is not your fault. You are not responsible. Wrong, all wrong. You have, in reality, nobody to blame but yourself. Why hav'nt you tried HOSTETTER'S BITTERS?

For all the above named complaints, the Bitters are absolute specifics.

**PINUS CANADENSIS.**

A tree which is abundant in Canada, Nova Scotia, and the more northern parts of the New England States, and is also found in the elevated and mountainous regions of the Middle States, and abounds in medicinal virtues. Dr. Swett, of Boston, has prepared a medicine from the sweet inside bark of the pine tree, called POLAND'S WHITE PINE COMPOUND, which is one of rare value in all debilitated states of the kidneys. It acts like a charm in all diseases of mucous membranes, enabling them to regain their lost tone and energy. It will be found well adapted to all those diseases, where Buchu has been tried and failed. It is likewise well suited to chronic coughs, and an infallible specific for old and debilitated cases of asthma. Many persons who at first only took a bottle of this medicine, to try, afterwards came back and got a dozen, or half dozen, which effected radical cures of diseases of the bladder and kidney of years standing.

Diabetes, a disease that has been looked upon as among the incurables, is immediately relieved by it. Notice the certificate of Asa Goodnue, published some time ago.

The *United States Dispensatory*, speaking of the pine, says: "It is prescribed in leucorrhœa, gleet, and other diseases of the urinary passages; in piles and chronic inflammation or ulceration of the bowels, in chronic catarrhal affections, and in various forms of rheumatism." It is exceedingly valuable in all gravelly affections, bloody urine, and where there is red and white sediment. It can be taken without interruption to one's usual avocations; and instead of sickening, produces a bracing, healthy power of endurance and vigor. Price, $1 per bottle; six for $5.

Ask for POLAND'S WHITE PINE COMPOUND. For sale by the gross, dozen or single bottle, at DR. KEYSER'S Great Medicine Store, 140 Wood street. ap20

SATURDAY, MAY 11, 1867.

### Southern Relief Movement—Meeting at the Board of Trade Rooms—Executive Committee Appointed—Address of Bishop Kerfoot to the Public.

In pursuance of a call issued by Bishop Kerfoot, a meeting was held at the Board of Trade Rooms, Friday forenoon, to take some measures to collect funds and supplies for the relief of the suffering poor of the South.

The meeting was called to order by W. G. Johnston, Esq., upon whose motion Bishop Kerfoot was called upon to preside.

The Chairman stated the meeting had been called in response to a circular issued by the Philadelphia Southern Relief Fund Association, the objects of which were already known.

William W. Ward, Esq., remarked that three meetings had already been held, and he thought it would be useless to organize another association. There were three agencies through which funds could be collected in this city, and he was in favor of our citizens sending in their contributions either to the one or the other. He thought relief should be liberally extended, but was of the opinion that another organization would only embarrass efforts now being made.

F. R. Brunot, thought the apparent apathy which seems to pervade our citizens could be explained by the fact that for months previous to the call for a public meeting measures for the relief of the Southern poor had been taken by the churches, and that persons had contributed through them according to their ability. He knew the people felt an interest in the matter, and he thought the appeals to the people to forget their prejudices were insulting. Through the efforts of the *Post* much had been done, and Rev. Joseph Travelli, agent for the Freedmen's Aid Society, had also distributed a considerable sum of money in reliefs. He thought the better plan to be to adopt resolutions sympathizing heartily with the agents operating, and recommending our citizens to send their contributions through the one they might select.

Mr. Brunot offered the following resolutions:

*Resolved*, That this meeting, called in response to the action of the Philadelphia Southern Relief Fund Association, fully sympathizes in the objects aimed at, and in behalf of ourselves and our fellow-citizens of Pittsburgh, promise to contribute, as we have been doing, of our means through the existing agencies for the relief of the suffering.

*Resolved*, That in view of the fact that for months past this work has been quietly progressing, through collections in the churches and individual effort, and that our sympathies and business relations more closely connect us with the Southwest, where chiefly our funds have hitherto been sent, we deem it inexpedient to organize a branch of the Philadelphia society.

*Resolved*, That we earnestly commend the cause as calling for renewed liberality on the part of the people of Western Pennsylvania, and, that more may be accomplished, that the Chairman of this meeting is requested to appoint collecting committees in the wards of the cities and boroughs, and a Central Executive Committee of five persons, whose duty it shall be to receive and distribute the funds and supplies contributed, and to take such other measures as they may deem best to advance the objects of their appointment.

*Resolved*, That the Chairman of this meeting be requested to issue an address to the citizens of Western Pennsylvania in behalf of this object.

Major Joseph M. Knap, suggested as an amendment, that a committee of five be appointed as an Executive Committee, and that our citizens be urged to send contributions direct to Hon. James P. Barr, or to Rev. Joseph S. Travelli, agent of the Freedmen's Aid Society.

Rev. Mr. Wilson concurred with the resolutions in part. It might be better to form another channel through which contributions could be received. Many persons might object to the existing agencies, and he thought it would be proper to afford them an opportunity to give. He had no doubt of the sufferings of the South, and bid God speed to those engaged in efforts for their relief.

Rev. Mr. Travelli stated that he had received upwards of $1,900 for the relief of the poor of the South, all of which had been contributed without solicitation. He had conversed with parties direct from Tennessee and Northern Alabama, and from their statements he was led to believe that the sufferings had been somewhat exaggerated, at least in the portions which they had traveled in. He had no doubt the people of the South were in need, but there was no starvation in the localities alluded to.

The Chairman here read a letter from Georgia, in which the writer depicted great suffering among the people. Extracts from letters from the South were also read by R. H. Kerr, to the same effect.

After some further discussion the resolutions were altered so as to embrace the suggestions made, and were adopted.

The Chairman appointed the following Executive Committee, as provided for in the resolutions: F. R. Brunot, Esq., chairman; Rev. S. J. Wilson, D. D., Major Joseph M. Knap; W. W. Ward, Esq., Secretary; Wm. G. Johnston, Esq., Treasurer.

On motion of R. H. Kerr, Esq., the meeting adjourned to meet at the call of the committee.

The following is the address of the Rev. Bishop Kerfoot, issued in accordance with the request of the resolutions adopted by the meeting:

BOARD OF TRADE ROOMS, }
PITTSBURGH, May 10, 1867. }

*To the Citizens of Western Pennsylvania:*—A meeting was called here to-day to cooperate in such a way as might be deemed best with the benevolent efforts now making in other parts of our State to relieve destitution in the South. There can be no doubt that there is such destitution of food, even to the extent of starvation in some cases, and of great suffering in thousands, tens of thousands of instances. The want to be supplied is—*food*. The want is urgent and must be met, if at all, at once. No men or women need any argument to convince them that to send food to the hungry, to those who must suffer, perhaps die, if left unaided, is binding on all, on grounds of common humanity as well as of religious responsibility. Children and women, as well as men, are hungry. Mothers have not food for their homes. Widows and orphans cry to God and to us for help. The cry comes from our near neighbors, and aid can reach and relieve them in a few hours. Will not all who have not aided in this work, or who can add anything more, send in their gifts of money to Wm. G. Johnston, Esq., No. 57 Wood street, or to any of the Central Committee, and gifts of corn, wheat, or food that can be safely forwarded to Rev. J. S. Travelli, or to Lloyd & Black's Warehouse, corner Market and Water streets, or to the Pittsburgh Grain Elevator.

By order of the meeting,
JOHN B. KERFOOT, Chairman.

### Just Published.

A NEW WORK ON APPLES, BY DR. JOHN A. WARDEN, OF OHIO.

This differs from any fruit book heretofore published in this country, in its complete classification of apples. The author gives the principal European systems and modestly puts forth his own to be tested by practice. He divides apples into four classes, according to their forms. Each of these classes is sub-divided by other obvious characters, and it would seem that any apple described in the book might be easily identified. We trust that this will prove a great help to the pomologist.

Fruit-growers will welcome this book as a valuable and long-wished for addition to pomological literature, and it will be found equally useful to the novice and the experienced orchardist. The work has 293 illustrations, is printed on good paper and well bound. Sent post-paid, price $3.00. Orange Judd & Co., 41 Park Row, New York.

### Grand Army of the Republic.

The following resolutions where adopted at a district meeting of the G. A. R. of Allegheny county, held in their hall, in Appolo Building, Fourth street, on Thursday evening, May 9th, and ordered to be published:

WHEREAS, An Association has been formed by the ladies of Allegheny county—having for its object the erection of a monument to the memory of those of our comrades who returned not—therefore,

*Resolved*, That in this patriotic undertaking, we recognize a renewed proof of that unselfish devotion to our country and its cause, which so distinguished the ladies of our city and country during the war and which contributed so largely to our success.

*Resolved*, That heartily sympathizing with the objects of this association, we hereby tender our assistance and pledge our selves to use our best efforts for its success.

### Burglary in the Fifth Ward.

About three o'clock yesterday morning the residence of William Will, No. 57 Walnut street, in the Fifth ward, was entered by burglars and robbed of three shirts, a coat and the key of the shirt store of Mr. Wills, on the corner of Penn and Canal streets. The key was, in all probability, the object of their visit to Mr. Will's residence, and after having secured it to enter the store and there make a good haul. The robbery was discovered almost immediately and prompt measures taken to trace up the thieves. About four o'clock they were discovered under the bridge of the Pittsburgh, Fort Wayne and Chicago Railway. As soon as they found they were being followed, they jumped into a skiff, which was in waiting for them, and made off down the river. It is to be hoped that they will finally be overhauled.

### Common Pleas Court.

—A part of the improvement in the tone of the feeling in the money market is due to the crop reports from the Southern States, which are more encouraging than previous accounts; more territory appears to have been devoted to seed last fall than is generally supposed. For example, a Chattanooga paper asserts that there will be more wheat harvested in Eastern Tennessee than during any previous year. Prospects were never better, we are told, in Virginia. The same is true of Georgia. The people of the cotton-growing States appear to have turned their attention from that staple to the growth of wheat, corn and other necessaries of life. The New York *Post* says:

"The general trade of the city is moderately active but somewhat irregular as to prices of breadstuffs and provisions. Light receipts of flour and the reduced stocks at the West have resulted in an advance of from fifty cents to a dollar per barrel in this market, and the limited supply is inducing speculations for a rise both here and in the West. Cotton has been active, and in variable, with an advancing tendency, but variable, reduced receipts and the improved tone of the foreign market. The receipts at all the ports last week aggregated only 18,088 bales, making a total since the 1st of September last of 1,660,882 bales, against 1,810,786 bales for the corresponding months of 1865-6. The stock at all the ports, according to the latest advices, amounts to 430,311 bales. The supply at Liverpool on the 20th instant was 795,820 bales, and at London 43,420 bales, while 90,000 bales of American and 363,900 bales of Indian were estimated to be afloat, making a total of 1,292,140 bales, against 1,541,680 bales at the same time last year."

—A New York paper says: Various sensation rumors are afloat relative to the liabilities of Watts, Crane & Co. Some accounts say that the firm was two millions short of gold and seven millions long of cotton. Nothing is positively announced as yet, however, and the statements made are mostly conjectural. The losses, it is said, will be widely distributed, falling chiefly on banks and private firms in the South. The suspension of Given, Jones & Co., stock brokers, in which firm Mr. Crane is said to have been a special partner, is not regarded as of much importance. About $200,000 gold were sold on their account this morning.

—The Detroit *Post* says: "One of our leading commission houses that has been selling flour on account of Chicago parties at $15,50 per barrel, received not long since orders to reship the stocks to Chicago, where it soon changed hands at an advance of 50c over the price asked in Detroit, over and above the costs of re-shipment. This is not an isolated case, and the fact is a striking illustrations of the true state of affairs in the west."

—The New York and Erie Railroad Company, a monster corporation of forty-seven and a half millions of dollars, debt and capital, earned during the year 1866, $14,596,413, being a nett income over expenses of $2,289,106, of which $1,631,073 were paid in interest on bonds and $567,304 in a 7 per cent. dividend on preferred stock, leaving a surplus of $89,720. A large saving in operating expenses is expected the current year.

### PITTSBURGH METAL AND BLOOM MARKET—WEEKLY REVIEW.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, May 10, 1867.

The market for metal has been rather quiet and dull during the past week, the sales in the aggregate being very limited, when we take into consideration the fact that the mills pretend to be in operation. The demand for mill iron is very light, and holders find it difficult to make sales even by granting concessions, and the same is true in regard to Blooms. We hear of offers to sell No. 1 Juniata Blooms at $100, cash, or $103@105, four months, and it is said they cannot be made at these figures. It is almost impossible to quote metal, as the market is so unsettled and prices are so very irregular, the commission men, as a general thing, doing the best they can without regard to what others are doing or have done. Good eastern mill iron may be quoted at $42 to $43, cash, and it is said that there were sales of Red Bank at $38½, cash. There has been but little done in Western brands, which is owing to the fact that they are held above the views of buyers. Foundry iron is in fair demand, but the sales are mainly in small lots and hardly worth recording.

### Cincinnati Market.

[By Telegraph to the Pittsburgh Gazette.]

CINCINNATI, May 9.—Flour firm but quiet; superfine winter, $12,50@13,25; trade brands, $14@16,50. Wheat dull and nothing doing, and prices nominal; millers are not willing to pay the rates asked, because they are much higher than flour; receipts light. Corn dull and prices closed nominal, at 94@96c for No. 1 mixed in bulk, and $1,06@1,07 sacked; there was no demand at the close. Oats steady, at 42c. Rye dull and prices lower at the close; No. 1 $1,68. Barley unchanged and dull. Whiskey advanced to $2,27 and but little on the market. Mess pork dull, at $22.50. Bulk meats dull and no demand. Bacon in moderate demand; sales of 90 hhds., at 8¾@9c for shoulders, and 11¾@12c for clear sides. Lard opened dull but closed buoyant, under the news from Liverpool, at 12¾@13c asked. Sugar steady, at 11½@14c. Coffee 25@28c. Butter dull, at 26@28c. Cheese dull. Eggs 15c. Gold irregular under the news from Europe this afternoon, closing at 136¾ buying, and 136¼ selling. Exchange steady.

### Milwaukee Market.

[By Telegraph to the Pittsburgh Gazette.]

MILWAUKEE, May 10.—Flour firmer, double extra, $12,25@14,50; extra, $12,75@13,25. Wheat unsettled, $2,95 for No. 1; $2,83@2,88 for No. 2; and $2,70 for No. 3. Oats firm, 75½c for No. 1. Corn steady, $1,10@1,12 for No 1, old; and $1,05 for new shelled.

### PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, May 10, 1867.

The produce markets present no new features worthy of special notice. There is a fair local demand for most of the leading commodities, and while the operations are mainly of a local and unimportant character, prices have undergone but little change, one way or the other.

GRAIN—Nothing doing in Wheat. Corn is a little dull, and prices are tending downward, and prime Yellow cannot fairly be quoted above $1,12. Oats quiet but steady; sale of 800 bush, on track, in bulk, at 60c, and small sales at the usual advance. Rye is quoted at $1,60 to $1,65. Barley is quoted at $1 to $1,10 for Spring.

—Since the above was put in type, we have the following sales reported: 500 bush Oats at 61c; 2 cars prime Yellow Corn at $1,15; 1 car Rye at $1,65, and 200 bush do at same figure.

FLOUR—Is quiet but firm, with a fair local demand, at unchanged prices—$15 to $15,50 for good to choice Spring Wheat, $16 to $17 for Winter Wheat, and $19 to $20 for fancy brands. Sale of 50 bbls "White Star" $15,50, and 50 bbls "City Mills Springfield" at $16. Rye Flour is scarce and firm at $9,50 to $10.

PROVISIONS—Bacon is steady at 9¼ to 9¾c for Shoulders; 11½c to 12½ for Ribbed and Clear Sides; 15¼ to 15½c for Plain Sugar Cured Hams; 16¼ to 16½c for Canvassed do, and 13½c for Breakfast Bacon. Lard, 13c to 13¼. Dried Beef, 22½ to 23, and Mess Pork, $23 to $23,50.

FISH—Sales of 50 hf bbls Lake Herring at $4,25; 50 do do at $4,50, and 40 hf bbls White Fish at $8.

BUTTER—Is in good supply and unchanged. Sales of 1000 lbs common at 10; 700 lbs fresh solid packed at 22: and 800 lbs choice Roll at 25c.

EGGS—Firm and in good demand at 15c.

POTATOES—Scarce and firm but unchanged. Peach Blows are selling in bbls $3, and in sacks at 90c to 95c. Buckeyes $3,50 per bbl.

GREEN APPLES—The supply in this market is almost exhausted—sales of choice Russetts reported to-day at $7,00 to $8 per barrel.

OIL—Lard Oil is firm but unchanged—87c to 88 cents for No. 2, and $1,08 to $1,10 for No. 1.

SEEDS—Flaxseed is in steady demand at $3. No movement in Clover or Timothy Seeds.

### PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, May 10, 1867.

CRUDE—The market continues dull and weak with a drooping tendency—the only sale reported to-day was four hundred barrels (43 gravity) at 6¾. Holders generally continue to ask 7, but there are but very few buyers, and some of our refiners, instead of buying, have sold considerable within the past day or two, their tanks all being full, and they were obliged to sell or hire tankage. At Oil City holders were asking $2,70 to $2,75 on Thursday, which is about all that can be obtained for it here. These prices cannot possibly be sustained very long, unless the market both here and in the east as well as in Europe, improves considerably, and the indications at present are not very favorable for such an event.

REFINED—There was rather more doing in bonded oil to-day, but the market is dull and weak nevertheless, and prices are barely sustained. Sale of 500 bbls prime light straw to white, for May delivery in Philadelphia, at 26c; 1000 for June, at 26¼c; 500 for July, at 27c, and 500 each for June and July, standard white, at 27¼c. Some of our refiners who have sold ahead pretty largely instead of refining are buying the oil east to fill their contracts, which they can do to much better advantage. It is said that one of our largest refineries will suspend operations within a few days; hold their Crude and buy refined in Philadelphia to cover their contracts.

ARRIVALS—The following arrivals of oil were reported to-day:

| | | | |
|---|---|---|---|
| Jas. Wilkins | 750 | Fisher & Bro | 5000 |
| Forsyth & Bro | 3000 | Mawhinney & Co. | 1300 |
| Total | | | 10050 |

## RIVER NEWS.

The river continues to recede steadily at this point with nine and a half feet by the Allegheny marks—five feet reported at Oil City. The weather yesterday was cloudy and cool, with indications of more rain.

The Glendale, from St. Louis, and the Kenton, from New Orleans, both with good trips, constitute the arrivals. The Glendale was only four days out from Cincinnati, besides doing a considerable way business. The Kenton has been something like five weeks making the round trip to New Orleans and back.

The Robt. Moore, from Portsmouth, was the only departure aside from the regular packets. The Ezra Porter, from St. Louis, and the Julia, from Cincinnati, are among the first boats due.

The Urilda left for Oil City last evening, and the Ida Rees No. 2 is due here from that point to-day.

The Ida Rees, Capt. Joe Brown, leaves this afternoon for Cincinnati and Louisville without fail, and passengers and shippers should bear this fact in mind.

The Kate Robinson is now in turn for St. Louis and the Upper Mississippi, and will be the first boat out.

The Julia No. 2 and Ezra Porter were advertised to leave Cincinnati for Pittsburgh on Thursday, as was also the Camelia for Tennessee river. The Messenger left there for New Orleans on Wednesday with a good trip.

The towboat Bengal Tiger, Tom Rees, N. J. Bigley, Mary Ann and Hornet arrived at Louisville on Tuesday last. The Ajax and Lake Erie were at Cairo on Wednesday.

The Great Republic was expected to arrive at St. Louis on Wednesday. She lost thirteen hours aground at Carrollton Landing, and fourteen hours at Memphis repairing machinery.

The Emma No. 3, from New Orleans, was at Cairo on Wednesday. The Cincinnati *Commercial*, of Thursday, says:

A few days since a tall, thin, dark complected man, apparently about 48 years of age, hailing from Yazoo river, and giving his name as Captain C. L. Baker, arrived here, and bargained for the purchase of the steamer Pine Grove for $18,000. He produced drafts amounting to $15,000. The paper not being satisfactory, the trade was abandoned. He next reported that he purchased the Lawrence, which, of course, was not the case. He next bargained for the Mollie Norton, with Baer & Jacobs, giving the latter party a draft on Jackson, Mississippi, for $1000, as a bonus. It appears, by telegraph to Jackson, it was discovered the draft was worthless. In the meantime, Capt. Baker borrowed about two hundred dollars from different parties, in small amounts. He also engaged a full crew of officers, who, of course, "stood treat" frequently. The last seen of Captain Baker, yesterday morning, he had his carpet-sack in hand, stating he was in search of his washer-woman. All hands, of course, were pretty well sold, yet, we incline to the opinion that Captain Baker is more fool than knave.

The steam tug Jack Robinson has been attached at St. Louis by the sheriff as security for damages resulting from her collision with the Southwest on Friday last.

The Cairo *Democrat*, of the 5th, says: The steamer Diana, in June, 1838, made the trip from New Orleans to Louisville in 5 days, 23 hours and 15 minutes. In the year 1840 the Edward Shippen made the same trip in 5 days and 14 hours and a quarter. In April, 1844, the Sultana made the trip in 5 days and 12 hours. In May, 1849, the Bostona made the trip in 5 days and 8 hours. In June, 1851, the Belle Key set all this fast time in the shade, by making the trip in 4 days and 23 hours. In May, 1852, the steamer Reindeer did still better, by making the run in 4 days, 20 hours and 45 minutes. Subsequently, in the same month, the famous Eclipse, then the finest boat that had ever made its appearance, made the trip in 4 days and 18 hours. In May, 1853, the A. L. Shotwell made the run in 4 days, 10 hours and 29 minutes, and in the same month and year the Eclipse, under the command of Captain Sturgeon, made the quickest trip on record up to that time, viz: 4 days, 9 hours and 30 minutes. In her race with the Eclipse, the Shotwell made the run from New Orleans to Cairo in 3 days, 3 hours and 40 minutes. The time of the J. M. White, we believe, still stands unequalled. The run of 1200 miles, from New Orleans to St. Louis, was made by the White, in the year 1840, in 3 days and 23 hours. Twenty-seven years have elapsed since then, yet the skill and genius of our people have produced no craft that has proved herself equal to this marvelous running.

It is now said the Dubuque was damaged to an extent of $10,000, in her collision with the Rock Island bridge. In the collision a portion of the starboard guards, wheel house, and the cabin, was pushed out of its position, and the gallows frame broke down. The boat was taken to Carondolet to go out on the ways. When will the proper steps be taken to abate this nuisance! The Rock Island Bridge is not the only one; the one at Clinton is equally bad, and the one now in course of erection bids fair to excel both, as the draw is being located on the bar, and will at certain stages of water prove an almost impassable barrier.

A St. Louis telegram under date of Wednesday says: The decline goes on here steadily. The upper rivers are getting down to an ordinary stage of water; hence there is a fair stage of water to Cairo. The Missouri River boats are bringing down good cargoes, and do not go out without a full cargo of freight and passengers. The Magenta took on 137 cords of pine knots, and left for New Orleans last Saturday evening, with the Richmond, determined to decide which is the fastest boat. The Golden Eagle left for Cincinnati last evening, loaded nearly to her guards. The Importer leaves to-day for Pittsburgh. The Silver Lake left for Fort Benton, with all she wanted, at low rates. The New Orleans packet lines are greatly agitated by the independent steamer Henry Adkins beginning to load at barge rates.

A dispatch from Goodin's Coal Banks, up the Missouri River, under date of May 7th, says: The Cornelia passed up yesterday, and the Viola Belle this morning. The river is falling slowly at this point. At Nebraska City the Lilly and Carrie passed up Saturday, the Kate Kinney, Evening Star, and G. A. Thompson Sunday, and the Marcella, Monday.

## MEDICAL.

**CONSUMPTION!**

It would take a man a lifetime to read the treatises that have been written upon this important subject, and if a sick man were to attempt it he would make himself worse by the reading, and die before he got half through. The symptoms of the disease are, hacking cough, expectoration of matter or pus, pain in one or both lungs, chilliness, burning in the palms of the hands and soles of the feet, exhausting day night sweats, hectic fever, wasting of flesh or marasmus, sometimes expectoration of blood. These are the usual outward symptoms, apparent not only to the observing physician, but to the patient's friends. There are, however, more important symptoms than these, which are only made manifest by auscultation and percussion, terms which mean, in a medical sense, thumping and listening, and they are employed outwardly in order to ascertain what is going on inside of the cavity of the chest. The signs or symptoms elicited in this way are almost sure demonstrate the true and exact condition of the respiratory organs. A perfect auscultator can not fail in ascertaining whether the Lungs are acting naturally or not. Hence it is the best method of examining the lungs. Their actual condition once discovered, the appropriate treatment is more rapidly arrived at, and every diseased part more completely under the influence of appropriate remedies. We have long been of the opinion that consumption or decay, or wasting of the bodily strength, was dependent on a depraved state of the blood, which carries, in its course, tuberculous matter, and deposits it in the lungs, or elsewhere in the body, just as calculi or stone is deposited in the bladder, a small particle of which attracts other particles, until it becomes of such offense to the natural functions as to bring on inflammatory action, which action, if it could, would carry it out of the system, and which could have been easily done in the beginning of such disease. DR. KEYSER'S PECTORAL SYRUP is a complete and perfect cure in the forming stage of lung disease. It acts on the very principle we have stated above, by enabling the securing or carrying off organs to do a double share of work. Waste and repair are easily comprehended, and if the worn out material be carried off, and the renewing material of a proper character, there must be health and ease, the contrary of sickness and *dis-ease*. In many cases of consumption which have become settled, Dr. Keyser's Pectoral Syrup fails to cure, although it will do good in nearly all. He prepares a medicine called LUNG CURE or PULMONARY RESTORATIVE, which is a great tonic, and strengthens and restores the parts to be renewed, while it dissolves and carries out from the body those particles of worn out or extraneous matter, which only tend to clog or destroy it, by hindering the renewing material being deposited in its proper place.

PULMONARY CONSUMPTION, RESULTING FROM PLEURISY, CURED.

Statement of George Ford, carpenter, of No. 16 Sampson street, Allegheny City:

I took a violent attack of pleurisy, in May, 1866, which left me with a cough lasting all summer, wearing away my strength and gradually undermining my health. During this attack of pleurisy I had several physicians of the highest reputation in the city. After I had partially recovered from the pleurisy, I was advised to go into the country, which I did, and when there I called in a doctor, who told me my left lung was affected, and that if something were not done soon I would die of CONSUMPTION. I lingered on from this time until about the middle of June, my cough and lung disease gradually growing worse, and I weaker every day, and almost despairing of ever getting well. In this state of despondency, and knowing the general belief of the incurability of Consumption, and having heard of cures made by DR. KEYSER, and seeing his advertisement in the newspapers, I was induced in October last to call on the Doctor at his office, 120 Penn street, and had him examine my lungs with his "LUNG SOUND." He told me the upper lobe of my left lung was very much diseased, but he thought with great care and the perseverance in the use of his medicine I would get well. At the time I called on Dr Keyser my pulse was over one hundred and thirty beats in a minute, and I was generally prostrated, and had to cough night and day. I commenced the Doctor's treatment in October, with a feeble, broken constitution, and continued it faithfully until the present time. The Doctor's medicines helped me from the very start, and I could gradually feel myself getting stronger and my cough and expectoration lessening. I have gained greatly in flesh, and consider myself well; all the rattling of my lung has ceased, and my general health is in every way good. All my relatives and friends know of the advanced stage of my disease and my extraordinary recovery. One of the medicines given me by Dr. Keyser was a medicine called LUNG CURE which I took in connection with the other treatment. GEORGE FORD.

PITTSBURGH, March 30, 1867.

ANOTHER CURE OF CONSUMPTION.
STATEMENT OF JOHN G. WIGHAM, OF TURTLE CREEK, ALLEGHENY COUNTY.

I was discharged from the United States army in January, 1866, on account of a wound in the head, from a shell, and a disease which the army physicians pronounced CONSUMPTION. I had a terrible cough and fell away in strength and flesh and was unable to do anything. Shortly after my return from the army, I made application to a physician of my neighborhood and, afterwards, to another in Pittsburgh of high reputation, whose remedies I used faithfully for five months, without any benefit whatever, but rather grew worse, and wasted in flesh and strength every day. In August, 1866, my mother took me to DOCTOR KEYSER, of 120 Penn street, whose skill in such cases like mine had been highly spoken of and put myself under his treatment. The Doctor examined my lungs very carefully with his LUNG SOUND, and told me that my left lung was badly diseased at the upper part, but if I was careful he thought he could cure me by following his directions closely, which I did from that day to this. I gradually improved under Dr. Keyser's medicines from the first week I commenced to take them, and my general health has improved, and my chest, where it was sunken away, and where it pained me, has become full and strong and free from pain. I can now do a full day's work, and take great pleasure in giving my testimony in favor of Dr. Keyser's treatment and medicines.

JOHN G. WIGHAM,
Turtle Creek.

PITTSBURGH, April 11th, 1867.

A case of five years' standing cured by DR KEYSER'S PECTORAL SYRUP:

DR. KEYSER:—My wife has been afflicted with a cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought the first time a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself to a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire to do so.

WM. WILSON,
Alderman, Fifth Ward.

Our son, JAMES PAINTER, some three years of age was afflicted with consumption of the lungs, for which he was discharged from the army. He was examined by four army physicians, who all agreed that he must die with the disease. We brought him to Dr. KEYSER, 140 Wood street, (now 120 Penn street,) who, after sounding his lungs, commenced to treat him, and cured him sound and well. He is now well and has been so for the past three years. Others afflicted in like manner can likewise be cured.
